

# Ancestor Child Project

Due: \_\_\_\_\_

Hello Students!

Welcome to our classroom family! Let's learn a little about each other and our heritage. This is the first project of the year, so it's time to get started!

Your assignment is to dress your "child" in the clothing worn by your ancestors (select one country). The Internet or a book from the library is a great resource. You could use fabric scraps, construction paper, yarn, or computer generated clothing, etc... You can even put a printed picture of your face on the doll if you want! Put your name and the country's name on the back. Don't forget to cut it out. We will proudly display our ancestor children on our classroom wall.

You can turn in your child any time you want, but make sure it is completed by the due date! A pattern is provided.

Have fun and please contact me if you have questions.

Your teacher,
